Re: Webb Gear

Just wanted to let everyone know how great Kathy Long and Webb Gear are to work with and how great the bags are.

If any of you have ordered Ryno bags in the past....Webb Gear is a "10" compared to Ryno. In the past few months, we've ordered quite a few bags from Webb Gear, and....unlike Ryno.....they've arrived on time!!!! And in the correct colors and with the correct screen print on them!!!!

I hope you've taken time to think about showing that S32 equipment bag to your football coaches....the price is great and you can make some \$\$s selling that bag.

We're waiting on our order of the new "mini-barrel" bags in our local school colors. These are miniature barrel bags with longer shoulder straps, and we ordered stock in many of our area school colors.....I think the girls and moms will really like these bags – embroidered with a school logo, team logo...."LAX MOM," "SOCCER MOM," whatever....to use as purses, small duffle bags....whatever. I can't wait to get the bags in and get mine embroidered....I'll let you know how these go over in our area.
